Our Districts of Distinction initiative recognizes U.S. school districts that have made the most progress in student performance from 2019 (Pre-COVID) to 2024. **The series identifies ten districts that demonstrated the highest improvements in English Language Arts, math, and science scores—showing just how powerful innovation and responsive approaches for learning recovery can be.** Through a comprehensive analysis of federal and state-reported data, district strategic plans, and interviews with educational leadership, we uncovered a range of diverse strategies driving these impressive gains.
